Step3:Then search for IOT Watson platform then click on create

Step 4: Then click on add device and give the device type and necessary details then click finish

Step 5: Finally, IOT Watson platform is successfully created

Screenshots of IBM Watson IOT platform and device:

The screenshot shows the 'Add Device' wizard in the IBM Watson IoT Platform. The current step is 'Device Information', which is highlighted in the progress bar. The wizard prompts the user to verify the following information:

- Device Type:** EPS25_Controller
- Device ID:** 2503
- View Metadata:** A button to view metadata for the device.
- Security Token:** To be generated

At the bottom right of the wizard, there are two buttons: 'Back' and 'Finish'.
